

Dignity2.0国際カンファレンス 設立趣旨文

人工知能（Artificial Intelligence：AI）は第3世代AIの中心である深層学習（Deep Learning）を超え、第4世代へ向かっています。この驚異的な進化は多くの利便性をもたらすと同時に、人間の肉体労働や知的労働を代替し始め、近い将来、大半の人間が無用者になると揶揄されるほど危機的な状況に追い込んでいます。そんな中での新型コロナウイルスの出現は、小さなウイルス1つさえも制圧できないという現代科学の限界を露呈し、世界共通の脅威となりました。健康被害のみならず、経済も瀕死状態に追い込み、心の健康も潰され、鬱や自殺、憤怒による暴力が蔓延するなど歯止めが効かない状態です。

これらの出現が、私たち人類に突き付けている究極の問い、それは『人間の尊厳とはなにか』ではないでしょうか。2045年には科学技術の終焉を迎えると言われ、これまでの時代が幕を閉じようとする中、本格的に心時代の扉を開けて次なるステージに上がるためには、この問いへの答えは避けて通れません。

これまでの尊厳の概念、Dignity1.0は、「部分的な存在の尊厳」に留まり、その存在間の尊厳関係を追求しました。ですが人類最大の転換期を迎えた今、尊厳の概念も進化すべきだと考えます。わたしたちが提唱するDignity2.0は、部分的な存在を許さない「1つだけがある世界（Non-duality）」をディファイン（規定）し、「尊厳でないものはひとつもない」ことを共通土台として出発します。そして、データや情報、知識などすべてが尊厳であり、その尊厳を土台に意味や価値を生み出し、未来を描きます。

このDignity2.0を元にした新教育、国家を超えて共有できる「世界基軸教育」は時代の要請です。そして、ともに未来社会や人間のこれからの在り方を探求し、本当の心と尊厳を伝える知恵を共有、融合する場を希求しています。これまでのように国家間やイデオロギーで争うのではなく、ともに新たな未来を創造するためのビジョン同盟を組めるようにすることが真の教育の役割であり、それを担う場が必要なのです。

この教育を全世界に提唱し、普及するムーブメントとして、「Dignity2.0国際カンファレンス」を実施します。これは、時代を牽引するリーダーの受け皿であり、哲学、スピリチュアル、物理学、数学、科学など、すべての学問を融合し、知を大統合する教育、技術を世界に普及するムーブメントであり、今までと次元が異なる新しい知識生産方式を共有するメタプラットフォームです。

この場では、多種多様な最先端分野で活躍する人が一堂に会し、各々の探求を共有し、心時代に必要な教育とは何かを考えます。また新たな教育を生み出し、心時代の職業、技術、商品、産業を創出します。

さらに、自由民主主義と共産主義のイデオロギー対決を尊厳民主主義で融合し、ポストコロナ時代の世界基軸教育による共同体の共生共栄の道を共有し、拡散することを目的とし、この趣旨の賛同者有志が運営する組織会議としても機能します。

2021年10月、大阪での開催を皮切りに、世界の主要都市に「Dignity2.0国際カンファレンス運営組織」を設置し、世界的な組織として活動の場を広げる予定です。運営は、大陸ごとにカンファレンスの進行グループを設けてシステムで分化し、「Dignity2.0国際カンファレンス」を運営する準備委員会は、時代を代表する組織として創設します。また、各国のニーズに合わせた人・ジャンル・方法を選択して開催する予定です。

人類未経験の危機的な時代に、世界基軸教育で危機を希望に大反転させ、尊厳を土台にした持続的な進化・発展を可能にする世界の実現のために、「Dignity2.0国際カンファレンス」をここに設立します。

Dignity 2.0 International Conference

Conference Vision

Artificial Intelligence has made remarkable progresses toward the fourth-generation AI beyond the deep learning of the third generation. Although this tremendous evolution of AI brings convenience for human society, that also increasingly carries out many physical and intellectual labors of human beings and that will place us in a crisis situation where most of us are becoming a member of the useless class in the near future. In addition, the outbreak of novel Coronavirus has revealed the limits of modern science that cannot bring a tiny virus under control and has posed a common threat throughout the world. That triggers the moribund economy and destroys mental health as well as poses health hazards to humans. Now the depression, suicide and violence with rage have prevailed and the situation is getting worse.

The emergence of those problems poses an ultimate question to human beings. The question is “what is the dignity of human beings?” The rapid progress in science is also expected to lead us towards the technological singularity, which is predicted to occur around 2045. That means today’s human society has come to an end and evolved dramatically to the next stage of a new kokoro (human spirit) era where people can no longer ignore that ultimate question.

Up until now, we humans have defined the concept of dignity as the dignity of “partial” existence and been searching for the dignity-based relationships between these existences. That could be Dignity1.0. However, we think that the concept of dignity should be evolved at this human’s turning point. We propose Dignity2.0 and it defines the world of non-duality, the world in which there is only one motion and any partial existence cannot be allowed. That means we have a start line—a common foundation in which there is nothing but dignity. A new education based on Dignity2.0 is the needs of the times and it could be the “World Axis Education” shared throughout the world. The times aspires a new platform where people who think about future society and search for what it means to be human to gather, share, and integrate wisdom in order to transmit what the true human dignity is and what the true kokoro is. The true role of education is to make all humans create visionary synergies for a new future and not to cause the conflicts among nations and ideologies like today. We need that new platform for providing this new education.

Dignity 2.0 International Conference serves as a movement to propagate this education throughout the world. The Dignity 2.0 conference will serve as a platform for leaders who are willing to lead a new direction in the coming era. It is a movement to promote education and technology combining many fields, such as philosophy, spirituality, physics, mathematics, and science as well as integrating the whole knowledge. It is also a meta platform that shares a new method of creating new knowledge. The meta platform does this by leveraging a new dimension that complements the universally known dimensions of time and space. At this conference, people who have been active in a variety of leading-edge fields gather and share with one another what they have been searching for. They are also encouraged to formulate a new education that allows development of new occupations, technology, products, and industries appropriate for the kokoro era.

Furthermore, this conference plays a role as an organization with the purpose of integrating the ideological disputes of liberalism and collectivism into a dignity democracy, and sharing and transmitting the path of co-existence and co-prosperity of communities created through World Axis Education in a Post-Coronavirus era. It is administered by volunteers who agreed with this purpose.

Starting with the Dignity 2.0 International conference in Osaka in October 2021, we will form a Dignity 2.0 International Conference managing organization for each of the major cities in the world so that we can expand our activity base as a world-wide organization. Each conference managing group will be focused on running the Dignity 2.0 International Conference for that country as an organization representing each country. In each country, the managing group will select people, genres, and methods that would match with its needs for a conference.

In this era where people should face the unexperienced crisis, we establish Dignity 2.0 International Conference in order to maintain a world that generates hope and enables continuous evolution and development of all people.
